Sub: Residential Training Programme on "Stress Management at Workplace for Working Women Executives" during 16-20th January 2017 at Goa.

Sir/Madam,

NPC has continuously endeavored to upgrade and assist the organization in enhancing their efficiency & effectiveness through active learning imbibed in its training courses, aimed at benefiting both the employers as well as employees

As we witness an increasing number of women workforce in the every sector, the program focuses on women executives in the every sector throughout country. So an attempt has been made during training program to highlight workplace stress among women executives in the every sector. The women executives experience a lot of stress due to various problems faced by them. The women executives face organizational problems like glass ceiling, lack of training and development opportunities, and sexual harassment at workplace and so on. They also face familial problems like work-family conflict, hostile environment at home, children and elderly care, etc. Thus, women in management face a number of problems on the personal as well as the professional front. Due to these problems, women executives in the workplace experience a lot of stress.

Thus, once again with the multifold objective of gaining further insights and knowledge through experiential learning & productive discussions, coupled with innovative training methods we have designed the residential programme on "Stress Management at Workplace for Working Women Executives, during 16-20th January 2017 at Goa, Wherein we invite your active participation. The accompanying brochure provides further details about the programme.

We are sure that programme will be very useful. You may like to sponsor some of your officials to participate in this programme. Seats are very limited so that you can send your nominations at the earliest.

Looking forward to your early response.

Yours faithfully

(Binko Turkey)

Programme Coordinator (IE)
