About the Workshop

The need for autonomy in Higher Education arises on the grounds of academic expansion, excellence and innovation.

Higher Education sector has witnesses a tremendous increase in the number of Universities/University level Institutions & Colleges. The quality of education depends on the factors – caliber and attitudes of students towards learning, the competence and commitment of teachers towards educational processes, the flexibility of the governance system and the social credibility of the educational outcome.

Autonomy is expected to provide a better framework for fostering these factors than the affiliation System. The concept of autonomy is a structural solution intended mainly to provide an enabling environment to improve and strengthen the teaching and learning process, benchmarking quality initiatives.
