You who always try to do your best, do you want to face a hopeful morning free from tests, people, scores, etc.

This generation of youth cannot have space to rest in their hearts and live an isolated life because of no communication. Even through small difficulties they fall into despair and hopelessness that cause scar and pain in their heart. So, they need some way to come out of this pain or hopelessness. We hope that your heart will be happy & your heart is the key.

The purpose of these workshops are to develop the potential of college students to become leaders of the upcoming generation through fellowship and union.

Change of life doesn't come by our will and effort. True change begins when the heart changes. Strong, self-controlled and challenge mindset is the key to change which can give you real success and happiness.

Through the various activities of YF, we cultivate youths to have strong hearts, capable of overcoming whatever hardship that befalls in life, to become the pioneers of the next generation.
