Integrated Reasoning Section	12 Questions	

Quantitative Section

The Quantitative section measures the ability to reason quantitatively, solve quantitative problems, and interpret graphic data. Two types of multiple-choice questions are used in the Quantitative section:

1. Problem solving
2. Data Sufficiency

Problem solving and data sufficiency questions are intermingled throughout the Quantitative section. Both types of questions require basic knowledge of:

- Arithmetic
- Elementary algebra
- Commonly known concepts of geometry

Verbal Section

The Verbal section measures the ability to read and comprehend written material, to reason and evaluate arguments, and to correct written material to conform to standard written English. Because the Verbal section includes reading section from several different content areas, you may be generally familiar with some of the material; however, neither the reading passages nor the questions assume detailed knowledge of the topics discussed. Three types of multiple-choice question are used in the Verbal section:

1. Reading comprehension
2. Critical reasoning
3. Sentence Correction

Integrated Reasoning Section

The integrated reasoning section involves some type of reasoning skills and analysis of data given to answer the question. The types of questions in IR sections are Table Analysis Graphics Interpretation, Multi-source Reasoning the two part Analysis.
