

University Industry Interaction Centre (UIIC)

Director's Message

Greetings from University Industry Interaction Centre, JNTUH!!

UIIC is committed to enhance the employability and develop the skill set through University Industry Interaction and continuous training. Now a day, competition is getting tougher day by day and get into the best career path is quite challenging. Success is more likely when students make decisions about what they are to learn in a well-informed manner. UIIC, JNTUH focuses in imparting training to the students for taking up career in their chosen field. The University offers soft skills training, remedial coaching, language lab, bridge courses, personal counseling and provides necessary awareness, knowledge and skill required for their career. International Conference, 'Meet the Achiever' programs and workshops have been organized this year. UIIC also aims to encourage the students for general reading, general observation and thinking power for reasoning and courage for facing various examinations. Institute organizes workshops on Aptitude and Reasoning for all students.

About UIIC

The Economic Development of a country primarily depends on the synchronized efforts of both the Industry and the University because the Industry drives the Economic Development and the University fuels it. In order to facilitate such synchronized efforts of Industry and the University, JNTUH has instituted a dedicated dais called University Industry Interaction Centre (UIIC) in the year, 2009. JNTU Hyderabad has been a pioneer in promoting industry-academia interaction and the scope of the activities has been steadily growing. JNTUH-UIIC strives to systematize and catalyse the various joint activities between the Industry and the University. Industry interactions relating to Engineering and Technology, Basic and Applied Sciences, Pharmacy and Management come under University Industry Interaction Centre. The main focus of UIIC is to bridge the gap between Institute & Industry. UIIC conducts several training programs to improve the job-readiness of the students and increase their employability. This directorate carries forward the interaction of university with the industrial bodies of Public, Private and Government sector organizations and also handles campus placement activities for all constituent units and colleges.

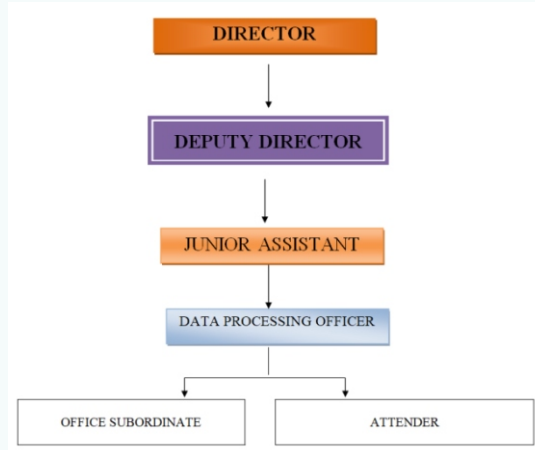

Vision

Strive to excel as the best interaction centre in the University system by promoting collaboration between the University and the Industry for imparting quality education and employability skills.

Mission

Our mission is to act as a catalyst for promoting collaboration amongst academicians, scientists, and industrialists to achieve competitiveness in developing the technical man-power for socio-economic development under the present scenario of global competition and challenges.

UIIC Structure

Objectives:

- To help the Industry to hire the right talent from its students' community at the right time.
- To facilitate the students' internships, academic projects, training programs and placements to the students by the Industries and other employers.
- To facilitate the Training, Research and Consultancy projects by the Industries to the faculty of JNTUH.
- To organise industry collaborative programs as seminars, workshops, industry visits etc. for the Students and Faculty.

Functions / Responsibilities of the UIIC:

- Industry Collaborative Activities to the students & faculty
- Career Guidance & Training to the students
- Placements to the students

Facilities available in UIIC, JNTUH

University Industry Interaction Centre has a computer lab with 30 systems and MATLAB Software to conduct industry oriented training programs. UIIC also has a Conference room to facilitate meetings and discussion with industry experts and HRs.

Computer Lab with 30 systems

Conference Hall

Testimonials

 I had been searching for certification courses, and when I found Blackbucks' Industry Oriented program, I knew it was the right choice. It got me my dream job with a great salary, making me so glad that I chose this option over settling for any of the local institutions with similar fees!

 I have always wanted to pursue a course that would offer me a good value for the certificate at an affordable tuition fee. I believe in this journey Blackbucks helped me to get a high package of courses under my domain.

Mode : Online or Offline or Hybrid

Fees : Rs. 25,000 - 3 Months
Rs. 50,000 - 6 Months

Why Choose Us?

About JNTUH College of Engineering

Jawaharlal Nehru Technological University Hyderabad was established on 2nd October, 1972 by the Legislature of the State of Andhra Pradesh as the first-ever Technological University in the country. It has been in the forefront in providing quality technical education of relevance erstwhile combined Andhra Pradesh State. JNTUH-UIIC strives to systematize and catalyze the various joint activities between the industry and the University.

About Blackbuck Engineers

Blackbuck Engineers Pvt Ltd is an EdTech company established in 2013 with the aim of creating a great ecosystem of academia, research, industry, and individuals and provides training in emerging technologies such as AI & ML, Data Science and Full Stack Development. Blackbuck delivers the TAPTAP an end to end employability preparation platform to transform the journey of students towards their dream goals while helping HRs hire right Students. JNTUH partnered with Blackbucks and established the Center of Excellence for Future Technologies.

EMPLOYABILITY SKILLS

There is a country-wide employability crisis as per the latest statistics. Blackbucks along with JNTUH is trying to address this by providing a world-class training industry led curriculum to students so that they become Placement Ready. Employability tests are conducted on TAPTAP on a monthly basis which are on par with any of the placement screening tests.

BLACKBUCKS TAPTAP

TapTap is a platform that aims to guide students in their placement journey. Students can strengthen their profile through Industry-relevant Projects and Internships. It uses AI recommendation algorithm to give student's job suitability thereby increasing the chances of getting placed while helping the HRs to hire right candidates.
