

TELANGANA'S ENGLISH ALGORITHM

TGCHE launches landmark initiative to empower students with communication skills

VVC PHANIDHARAN
HYDERABAD

IN a significant stride towards enhancing the global competitiveness of students in Telangana, the Telangana Council of Higher Education (TGCHE) has launched its first English language textbook—English Algorithm: Basic Skills for Personal and Social Communication—as part of the state government's broader skill and soft skills development initiative. This move aligns with the government's vision to empower students with essential communication skills and make education more accessible, inclusive, and future-ready. The newly introduced learning material is designed primarily for first-semester degree students across Telangana, but its utility extends to anyone seeking to improve their English proficiency. Developed in a self-study format, the textbook is accompanied by a workbook and a teacher's handbook, ensuring that learners can engage with the content at their own pace, beyond the

confines of traditional classroom settings. Speaking to 'The Hans India', TGCHE Chairman Prof V Balakrishna Reddy said, "What sets this initiative apart is its distinct Telangana orientation. The content resonates with the everyday experiences of students in the region, making English learning a relatable and enjoyable process." "The textbook avoids the conventional reliance on dense literary passages and rote grammar exercises. Instead, it adopts a holistic approach that integrates listening, speaking, reading, and writing—the four pillars of language acquisition—into a seamless learning experience. Each unit begins with

short listening passages that reflect the rhythm and tone of ordinary English as spoken in familiar settings. These are followed by graded speaking tasks that guide students from basic greetings to more structured conversations. The reading material includes poems, essays, and prose pieces selected for their accessibility. "Grammar and vocabulary are subtly embedded within these tasks, allowing students to grasp language rules through context rather than 'memorisation,'" Prof Reddy added.

A standout feature is the emphasis on reading for pleasure. "A dedicated section encourages students to explore English texts freely, fostering a sense of ownership and emotional connection with the language," said Prof Balakrishna Reddy. On future initiatives, the

TGCHE Chairman said that to further support independent learning, TGCHE is preparing six audio lectures—each corresponding to one of the textbook's six units—along with an introductory presentation. These two-hour lectures will soon be integrated into the textbook and workbook, offering students and teachers a valuable resource for listening and speaking practice.

Clarifying the necessity of such efforts, Prof Balakrishna Reddy said that the Council's initiative reflects a thoughtful response to the challenges faced by students in accessing quality English education. He asserted that English Algorithm is "not only democratizing education but also laying the foundation for a generation of confident, articulate, and globally competitive graduates."

SAI - SUDHIR PG COLLEGE
Approved by AICTE, Affiliated to OU
B-2, 2nd, 4th Floors, Hyderabad-500 085 (Rg. 99402713, 916044003)
ADMISSION NOTIFICATION - 2025-2026
Under SPOT Admissions & B-CATEGORY SEATS (MBA & MCA)
Application are called for admission into MBA & MCA course under spot admission (not-reported vacancy) & B-Category (NRI/Management) for the academic year 2025-2026. Interested students can contact office in person for details at the earliest.

JNTUH TO HOST VANAMAHOTSAVAM TO PROMOTE CAMPUS GREENERY

HYDERABAD: Jawaharlal Nehru Technological University Hyderabad (JNTUH) is set to celebrate Vanamahotsavam on Wednesday, as part of its ongoing commitment to environmental sustainability and campus beautification. Accordingly, the event will commence at 7:30 AM near the designated plantation area opposite the Golden Jubilee Building.

A JUNTU-H statement said on Tuesday, the Registrar emphasized the vital role of greenery in sustaining life on Earth—highlighting its contributions to air purification, water conserva-

tion, and ecological balance. The initiative aims to foster a cleaner, cooler, and more harmonious environment for both present and future generations.

The plantation drive will be led by the Vice-Chancellor, along with the Rector, Registrar, Principals of UCETH and UCMH, and Directors of all units at the University Headquarters. Faculty members, non-teaching staff, and students have been urged to participate actively and contribute to the collective effort of enhancing the campus's green cover.
