

SCHOOL OF CONTINUING AND DISTANCE EDUCATION (SCDE)

JAWAHARLAL NEHRU TECHNOLOGICAL UNIVERSITY HYDERABAD

(Established by Govt. Act No. 30 of 2008)

Kukatpally, Hyderabad, Telangana (State), INDIA - 500085

Programme Title	Cloud and Devops
Programme Dates	19-09-2022 - 19-03-2023
Participant Program Feedback	

S.No	Participant Name	College	State	Feedback	Suggestion
1	AILAPAKA UDAY KIRAN	The Energytech Global Pvt Ltd	Telangana	The sessions were conducted regularly. It was engaging and interactive. The trainers were very good in explaining the concepts and clarifying the doubts.	Assignments should be given properly. It should be tracked in the LMS instead of Oral communication
2	Mukkamala Krishna raghav	JNTUH		"The instructor was very willing to answer questions from individuals, which is very helpful" "Overall, very interesting and useful - exercises consolidated the learning" "Although it was my first online workshop, everything was perfect!"	Need extra time for classes
3	Rohitha Namburi	JNTUH	Telangana	It was good course and faculty was good with clear explanation.	Course videos has to be available for us for future reference and good to provide more documents/ppts.
4	Koganti Ramya	JNTUH		This course is very useful for it sector and the trainees are explained clearly	No
5	Koganti Divya	JNTUH		Good, this training is very helpful to me and in future also it is used a lot	Na
6	Venigandla Annapurna	JNTUH		It is good	Add extra topics
7	PACHIPALA SAI GOPI	Rvr&jc college of engineering		Good	Timings of class should be improved
8	Chirravuri Venkata Satyanarayana Murthy	JNTUH		No comments	No Comments

9	PAVAN KUMAR SHAGANI	JNTUH	Telangana	This course is very useful for working professionals.	NA
10	NARAYANA SAMBASHIVA RAO	FACTSET SYSTEMS IND PVT LMT	Telangana	Thank you JNTUH for the amazing opportunity to take part of the cloud and devops. Over all course was helpful for learning new technology of cloud and devops instructors were delivered a valuable content in time. As I am working professional this would help me in career growth and leads new opportunities.	I would suggest class timings can be improved with out short notice
11	SRAVANI VULUPALA	JNTUH		It was a good course, all the instructors were really great and shared good knowledge. The only feedback is regarding the timings and schedules and coordination with the students.	Scheduling could have been better
12	ANGELA SPANDANA YADIKI	JNTUH		Classes were good. But towards the end classes were not held in fixed timings which truly was very inconvenient.	Fixed timings through out the course.
13	VELURI RUTHVIK	JNTUH		The program was really well organised. Gained a lot of knowledge. Hope it helps me in the coming days.	The constant change of timings and re scheduled classes were a little troublesome.
14	Arul Raj Natraj Rajgopal	Dell Technologies Pvt. Ltd.	Telangana	This was a great idea to help working professionals. Trainers were training just practicality however the exams were very technical and there was no reference given.	Please provide proper links and training material for us to study so that we can do better in exams, since the teaching was little but the exams were really technical.
15	ANUSHA KANDALA	JNTUH	Telangana	It's a great opportunity to take part in Online course conducted by SCDE, JNTUH. Trainers are very friendly and encouraging.	Along with the Training we need some guidance on Job opportunities, Roles and Responsibilities of Cloud & DevOps Engineer. Their day to day activities. Knowledge on work Environment. Training have been attended not only by working professionals but also by the members who where looking for an opportunity with new profile or to join software companies after a gap. So, it will be very helpful for us to acquire some knowledge on software companies and their requirements.
16	SUSHMITHA HEEREKAR	JNTUH		It was good learning at jntuh with great professors	Delay in getting the results
17	Achanta Jaya Lahari	JNTUH		This program is overall great and gave a lot of scope for a fresher like me to understand the work culture of a Cloud and DevOps Engineer.	It would be good if we had more sessions on Docker and Kubernetes

18	AZEEZ MOHAMMAD	Venkateshwara Institute of Pharmaceutical Sciences	Telangana	Hi Team thank you for asking. need good teachers and more practice sessions.	Hi Team thank you for asking. need good teachers and more practice sessions.
19	Upendar Gajji	NTT DATA	Telangana	I am good with the training . trainers also good.	Requesting for videos for downloading but not provided the access.
20	Dr Mohd Abdul bari	ISL Engineering College	Telangana	Clarity of Objectives event's objectives are clearly communicated Content and Relevance session whr awesome Speaker whr possesses relevant industry experience and knowledge with greater quality and increased dependability thanks to the cloud and DevOps. In today's fast-paced, technology-driven world, organizations may gain an edge by using cloud computing and DevOps methods.	There are a lot of requests for test vouchers for cloud certification exams, and many of these courses are brand-new cloud-based offerings. As a result, pupils improve their performance in class.
21	DEEKONDA VIJAY CHANDER	JNTUH		The course is effective and useful for the working professionals and also for freshers. Course duration, explanation and guidance from the mentors are good. Overall the course is effective and good	Support for assignments
22	Madhav Maraju	Information Technology	Telangana	Firstly, the program lacked proper organization. There was a lack of a structured schedule, making it difficult to plan and manage my time effectively. The classes were often arranged in a haphazard manner, causing confusion and inconvenience for the students. It was frustrating to have to constantly adjust my schedule due to last-minute changes. Furthermore, the SCDE failed to provide clear and timely communication. Important information about the program, such as class timings, course materials, and assignments, was not communicated in advance. This lack of prior communication made it challenging to prepare adequately and hindered the learning process. Moreover, the overall program lacked organization. There was a lack of clarity in terms of the course content and the learning objectives. The curriculum seemed disorganized and poorly structured, making it difficult to grasp the core concepts effectively. The Cloud and DevOps classes conducted by Manoj and Vinod stand out as the highlights of the program. Their teaching methods and expertise in the subject matter are commendable. Their classes are well-structured, engaging, and provide valuable insights into the field. It is evident that they put effort into preparing their sessions and deliver them effectively.	The SCDE at JNTUH needs to address these issues in order to improve the quality of their Cloud and DevOps program. A more organized approach, including a structured schedule, clear communication, and a well-designed curriculum, would greatly enhance the learning experience for students. It is crucial for educational institutions to prioritize effective organization and communication to ensure a successful learning environment.
23	Sandya chalapareddy	JNTUH		I think we can improvise on the sessions taken. These sessions were arranged randomly as we progressed in the course, maybe we can avoid these issues. All students have submitted ratings and reviews and JNTU collected the feedback but there is no further action taken. I think a systematic approach is very much required for these courses.	A lot of suggestions Please provide good faculty. Dont drag the sessions, Give us practical knowledge Please give all instruction before hand and also provide them in some page which we can refer later
